VMware Education Services
VMware vSphere 6 Training and Certification

VMware vSphere® is the world's leading server virtualization platform, and is the foundation of the Software-Defined Data Center. The new vSphere 6 builds on the success of prior versions of vSphere and extends your ability to virtualize scale-up and scale-out applications, redefine availability, and simplify your virtual data center. Gain more value from your investment with vSphere 6 training from VMware Education Services with:

vSphere: What's New [V5.X to V6]

Explore new features and enhancements in VMware vCenter Server™ 6.0 and VMware ESXi™ 6.0 in this hands-on training course. Gain the skills required to effectively implement and configure VMware vSphere 6 using real-world use case deployment scenarios, hands-on lab exercises, and lecture material. This class is recommended for customers who want to deploy vSphere 6 into their existing vSphere environment.

vSphere: Install, Configure, Manage [V6]

Our best-selling course, this intensive, hands-on training course focuses on installing, configuring, and managing VMware vSphere 6, and includes VMware ESXi 6.0 along with VMware vCenter Server 6.0. This course will give you a solid understanding of how to administer a vSphere infrastructure for organizations of any size.

vSphere: Optimize and Scale [V6]

This training course is designed for experienced VMware vSphere users and teaches advanced skills for configuring and maintaining a highly available and scalable virtual infrastructure. Through a mix of lecture and hands-on labs, you will focus on configuring and optimizing the vSphere features that build a foundation for a truly scalable infrastructure, while discussing when and where they will have the greatest impact. Anyone who is ready to take their understanding of vSphere to a deeper level and learn how to leverage advanced controls will benefit from this course.

These courses will be available for registration on February 2, 2015. Your VMware Education sales representative can work with you to create a comprehensive plan for your team including On-Demand Learning, Onsite Training, Live Online, or Classroom Training to best suit your needs. Find out more at www.vmware.com/education.

vSphere 6 Training and Certification

VSPHERE FUNDAMENTALS: DATA CENTER VIRTUALIZATION

Develop an understanding of VMware Virtualization and related technologies.
Gain a more in-depth understanding of how virtualization drives better business outcomes and enables business agility. Enhance your knowledge of the terminology and requirements needed to enable the software-defined enterprise through real-world use cases and scenarios offered in a convenient self-paced format.

Intended for: Executives, Line of Business Decision Makers, IT Professionals

Course:	Associated Certifications:
VMware Data Center Virtualization Fundamentals *FREE e-Learning (3-hours)*	VMware Certified Associate – Data Center Virtualization (VCA-DCV)

VSPHERE ADMINISTRATION: VIRTUALIZATION MANAGEMENT

Provide flexible and efficient IT Infrastructure with vSphere
Deploy and manage a fully functional virtualization platform that is more efficient and lets you take more complete advantage of the capabilities of your technology and build a better platform from which to deliver IT services.

Intended for: Virtualization Administrators, Operations Team, vSphere Consultants and Systems Engineers

Course:	Associated Certifications:[4]
vSphere What's New [V5.5 to V6][1] *Instructor Led (2-day) & On-Demand*	VMware Certified Professional: VCP6-DCV
vSphere: Install, Configure, Manage[2] *Instructor Led (5-day) & On-Demand*	VMware Certified Professional: VCP6-DCV
vSphere: Optimize and Scale[3] *Instructor Led (5-day) & On-Demand*	VMware Certified Professional: VCP6-DCV

VIRTUALIZATION DESIGN & DEPLOY: VSPHERE DESIGN

Deliver a scalable, flexible and efficient Virtualization Platform
Gain insight and understanding of the technology influencers that affect virtualization infrastructure design with an ability to deploy implementations in the most efficient way that supports business and IT stakeholders.

Intended for: vSphere Consultants, System Engineers, Architects

Course:	Associated Certifications:
vSphere: Design & Deploy *Instructor Led (5-day), On Line, On Site*	VMware Certified Implementation Expert – Data Center Virtualization (VCIX-DCV)
