

# Instructor-Led Online Training (ILO)

Live Online Classes in the  
Virtual Classroom

We understand the importance of flexibility when it comes to employee training and development, that's why Fast Lane's **Instructor-Led Online Training (ILO)** provides all of the advantages of our classroom training virtually via WebEx allowing you to Gain access to a live classroom environment from the comfort of your own home or office.

Our ILO offering brings a live classroom environment straight to our customers, ensuring that each student receives the same level of education and attention they would if they were sitting in a classroom. Delivered virtually via WebEx, our ILO courses feature the same content and labs as our Instructor Led Classroom Training (ILT). The class is fully interactive allowing you to communicate both with your instructor and fellow course participants.

#### **Benefits of Fast Lane's ILO Training:**

- » Save time and money on travel costs, whilst reducing your carbon footprint
- » Join from your Home or office
- » Exactly the same content, hands-on labs and exercises as a classroom delivery
- » Fully interactive with the instructor and class delegates
- » State of the art on-line training experience

#### **Some of the key features of our ILO Training is:**

- » High-quality video and audio (VoIP or integrated telephone support)
- » Extensive interactive capability through chat, polls, multimedia, sharing and student engagement monitoring
- » Courses specially enhanced for the highest-quality ILO delivery
- » Remote labs that leverage real hardware or virtualised software built to mimic true enterprise infrastructure
- » Instructors that have been extensively trained and experienced on our ILO platform
- » Breakout groups for collaboration and exercises
- » Ability to train all of your employees in a single training session regardless of geographical boundaries
- » Multi-platform, multi-device support including mobile devices
- » Support staff in place to support instructors and students with any connectivity issues
