

# Certi Tool

Helping you to obtain and maintain your Cisco or NetApp partner status:

## Take advantage of our Channel Partner Certification Tool!

With years of experience managing channel partner programmes Fast Lane has developed and constructed a unique database that allows us to look after and manage your certification requirements in order to maintain or achieve a desired partner status.

Certifications amongst your employees will expire at different times so continuous monitoring is necessary, this is where Certi Tool comes into play. We can identify when each member of your team will require to sit their exam in order to renew their certification, so you are compliant with your partner specifications. We can then highlight if a course is required before sitting the exam and when the training is available. Certi Tool keeps on top of any changes implemented to the partnership requirements, keeping you up to date with all the latest obligations and specifications. We can also help you plan in advance to ensure you are fully covered should any certified employee leave your company.

All certifications, specialisations and tests

The screenshot shows a detailed view of an employee's certification status. It includes a table with columns for various certifications and their expiration dates. The table is titled 'Fast Lane Benefits' and 'Advanced Data Center Networking Infrastructure'. The table has columns for different certification types and their expiration dates.

Index	AA001	AA002	AA003	AA004	AA005	AA006	AA007	AA008	AA009	AA010
1	650-987 PSDCUC									
2	642-357 DCSNS									
3a	642-991 DCUFD									
3b	642-971 DCNID									
4a	642-993 DCUCD									
4b	642-982 DCUCD									

Detailed information for each employee

All of these considerations need to be taken into account and Certi Tool simplifies all of the scenarios saving you time and effort to ensure you are compliant to achieve your desired or maintain your current partner status. Rest assured we handle all of your information with the upmost care and discretion and employee's details and privacy is guaranteed at all times.

Do to find out more about our Certi Tool database and how we can work with you to manage your partner status or goals on your behalf? We would be more than happy to come and demonstrate the Certi Tool so you can see the possibilities available. Please call us on 0845 470 1000 or email enquiries@flane.co.uk.

The advantages for your organisation  
At any given moment you will have an overview of:

- The current channel partner programme requirements including exams, certifications, specialisations and courses required to maintain / obtain your partner status.
- Where your organisation stands within the partner programme.
- The route your organisation should take in order to achieve the desired goal.
- A detailed training programme for each employee, Fast Lane will manage the booking process and procedure for you.
- The potential risks your organisation runs, which certifications are due to expire and what happens when a certified member leaves your organisation.

# Fast Lane Learning Center

## Test your current knowledge level!

Register on the Fast Lane Community Site, and you will get free access to our Learning Center! The Fast Lane Learning Center features various self-check assessments that can help identify your current knowledge level. Whether preparing for your career certification test or just identifying your current skill set, the Learning Center will help you take full advantage of your training. Please note that we are adding more assessments as well as other learning modules on a regular basis.

To access the Learning Center please go to: [www.fastlane-community.com](http://www.fastlane-community.com) and register yourself. Click on the menu 'Learning Center' and you will get free access to our assessment tests.

If you have any questions about the Fast Lane Learning Center please call us on 0845 470 1000 or email [enquiries@flane.co.uk](mailto:enquiries@flane.co.uk).
