

 *Fast Lane* LIVE

# Your One Stop Shop for Digital Learning

Based on our competence and experience in the development of high quality training courses we have developed a future orientated, digital platform: Fast Lane <sup>LIVE</sup>!

Our interactive learning platform offers seamless access to a wide range of e-learning products for demanding technology topics and accompanying services.

Unlike platforms provided by other providers, we do not rely on a single learning management system. Fast Lane <sup>LIVE</sup> offers a flexible combination of different applications that provide direct access to all the components of your digital learning journey, regardless of where they are hosted.

The future of Digital Learning with Fast Lane

Fast Lane <sup>LIVE</sup> is constantly growing and evolving with more and more offerings being added daily.  
Learn more at [www.fastlane.live](http://www.fastlane.live).

# Fast Lane <sup>LIVE</sup>

## Your One Stop Shop for Digital Learning

### Seamless navigation through Fast Lane ID

With other learning products, there is a different platform and a different login for each provider. Fast Lane <sup>LIVE</sup> relies on a comprehensive single sign-on solution with the Fast Lane ID, which enables users to access all products with just one login and launch them conveniently from their central dashboard.

### Anywhere, Anytime & Any Device

Log in to your profile at any time, from any location and continue your journey through the Fast Lane <sup>LIVE</sup> learning network.

### Sophisticated E-Learning Catalogue

Fast Lane <sup>LIVE</sup> offers a wide range of e-learning products in various subject areas such as Data Science, Microsoft Azure or Cisco Security. We also offer the official premium e-learning titles developed by industry leading technology vendors.

### Learning-as-a-Service (LaaS)

We offer our LaaS package for all e-learning courses. The package includes services to support users through their learning journey: such as first class online coaching that allows you to achieve your goals quickly and sustainably. Read more about our LaaS options on page 6.

### Remote Labs

Fast Lane <sup>LIVE</sup> gives you access to our entire catalogue of high-end labs. Choose a lab, ask for availability, book your lab and log in to the Fast Lane remote lab client via Fast Lane ID.

### E-Commerce

All products in our Fast Lane <sup>LIVE</sup> catalogue are supported by a modern e-commerce system. Pay securely online or by traditional invoice.

### Individual Enterprise Solutions

Looking for a comprehensive solution for your team or company? We can happily provide you with a bespoke solution to suit your requirements. See page 7 for more information.

# Fast Lane <sup>LIVE</sup> Services

## E-Learning Catalogue

Fast Lane <sup>LIVE</sup> offers seamless access to a comprehensive catalogue of e-learning products for demanding technology topics.

# Learning-as-a-Service (LaaS)

Choose LaaS for an enhanced learning experience with services such as labs, mentoring, learner support and more.

## What is Learning-as-a-Service (LaaS)?

LaaS is an interactive, cloud-based education subscription that combines individual and collaborative learning.

Learners progress at their own pace and can access a variety of remote activities including a virtual lab or dedicated support from qualified experts.

## More than just E-Learning

Learning-as-a-Service offers numerous interaction possibilities that go far beyond pure e-learning in self-study.

Studies in academia have shown that when learning is totally self-driven and self-paced, the success rate is low. Success rates improve when a learner has the opportunity to interface, in real-time, with learner peers or an expert.

## LaaS-Options

Our LaaS Options include:

### Q&A Coaching

Learners can submit content related questions to SME.

### 1:1 Virtual Live Coaching

Learners can schedule 1:1 virtual sessions with SME.

### Group Discussions

Learners can access (moderated) course/technology discussion group.

### FAQ

Learners can access comprehensive course based FAQ's to speed up time to answer.

### Virtual Labs

Learners can access course complimentary learning labs (beyond the standard lab).

### Coaching Office Hours

Learners can attend weekly SME office hours.

## Benefits for Individuals and Teams

- ✓ Flexible Learning: Around your daily schedule when it best suits you.
- ✓ Anytime & Anywhere: Location-independent access - 365 days a year.
- ✓ Sustainability through human interaction: Collaborate with Industry Experts.
- ✓ Cost-efficient: Saving time and money on travel and accommodation.
- ✓ Scalability: Perfect for teams & organizations.
