

Cisco Learning Credits

Make Cisco Learning Credits work for you

Cisco Learning Credits (CLCs) are prepaid vouchers you can use to plan and pay for Cisco training and exams. They're an ideal way to allocate training dollars toward immediate and long-term training goals.

Convenience

Redeem Learning Credits for most Cisco Learning and Certification products, including instructor-led training.

Versatility

Use Learning Credits to pay for your registration to Cisco Live, the premier event for Cisco customers and partners to gain knowledge and build community.

Flexibility

Add Learning Credits to orders of Cisco products and services or purchase them by themselves—in increments of 1, 10, 100, 500, and 1500 learning credits.

Purchase now and save for later training

CLCs make it easy to include training as part of a total solution with the purchase of Cisco products and services. Organizations can budget for training needs, making decisions at the point of the product/technology sale or saving CLCs to plan for training later based on the type of training you need, specific timeline, and who will attend.

We all know it's easier to get CapEx budget at the time of infrastructure purchase; you are buying the complete solution and not waiting for those hard-to-get OpEx funds to come through. Furthermore, each Learning Credit comes with a Learning BDM who serves as a subject matter expert to help you determine training, create plans to ensure your success, and assist in redeeming your CLCs.

Increments for Cisco Learning Credits

Learning Credits	Cost	SKU
1 credit	\$100	TRN-CLC-004
10 credits	\$1,000	TRN-CLC-055
100 credits	\$10,000	TRN-CLC-001
500 credits	\$50,000	TRN-CLC-002
1500 credits	\$150,000	TRN-CLC-003

Many ways to redeem your CLCs

Your Learning BDM and Learning Partners are your sales assets to help you develop your training plans and strategies. You can use CLCs for nearly all your Cisco training needs.

You do not need to identify [courses](#) when you purchase CLCs. However, we highly recommend that you work with your [Fast Lane](#) Account Manager to help create a training plan that fits your needs.
